Education

Queens College, City University of New York

Bachelors in Computer Science, Minor in Mathematics

Expected May 2027

Queens, New York

Technical Skills

Languages: Python · JavaScript · C++ · Java · HTML · CSS

Technologies/Frameworks: React.js · Next.js · JQuery · Firebase · Excel

Relevant Coursework

- Algorithmic Problem Solving, Object Oriented Programming, Discrete Structures, Comp Org & Assem Lang

Experience

Headstarter AI

July 2024 – September 2024

Software Engineering Fellow

Remote

- Engineered and deployed **5** AI-powered web applications, targeting scalability and user growth.
- Led a team in developing full-stack web applications using Next.js, React, Firebase, and other technologies, reducing development time by **30%** through implementing modular components and CI/CD workflows.
- Optimized workflows, enhancing project delivery speed, ensuring seamless integration of modern web technologies like OpenAI, Pinecone, Stripe, and Clerk auth.

CodePath

September 2023 – April 2024

Web Developer Fellow

Remote

- Expanded proficiency in web development technologies, including HTML, CSS, JavaScript, and React.js, through intensive training and project-based learning.
- Integrated API calls into the website, utilizing frameworks to fetch data and parse JSON responses from an unfamiliar API.
- Facilitated team-based coding sessions, optimizing project delivery times through effective code reviews and pair programming.

CTE Industry Scholars Program

February 2023 – April 2023

Web Developer Intern

Remote

- Designed and developed a dynamic website using HTML, CSS, and JavaScript to showcase an author and influencer's radio show, books, and events.
- Increased site visits and gained a **15%** boost in product purchases by improving user experience and implementing optimized design strategies.
- Worked closely with the media team to align digital content and visual elements, ensuring cohesive branding and promotional success.

Projects

AI Powered Expense Tracker

React, Next.js, OpenAI, Firebase, Clerk

- Built an AI-powered expense tracker that allows users to split costs seamlessly using natural language input, with OpenAI extracting key details like amount, participants, and balances for automated calculations.
- Integrated Firebase for real-time data storage and Clerk for authentication, ensuring secure access, persistent user data across sessions, and a seamless user experience with automated expense tracking and retrieval.

AI Flashcard SaaS

Next.js, Firebase, Stripe, Clerk, Material-UI

- Developed a full-stack flashcard web app that dynamically generates, saves, and organizes flashcards using Firestore's hierarchical data structure for efficient retrieval and real-time updates.
- Integrated Stripe for subscription payments and implemented Clerk authentication, enabling secure user access, premium feature management, and a scalable payment system.

Certifications/Awards

* IT Specialist- HTML and CSS Certification

* EVERFI Financial Literacy Certificate

* Wells Fargo Software Engineering

* 100+ Hours of Community Service

* Winner of Infy App Challenge

Provost Scholar

August 2023 - Present
