Education

Queens College, City University of New York

Bachelor in Computer Science, Minor in Mathematics

Expected May 2027

Queens, New York

Technical Skills

Languages: JavaScript · Python · TypeScript · Java · C++ · HTML · CSS

Technologies/Frameworks: React.js · Next.js · Tailwind CSS · JQuery · Firebase · Node.js · Express.js · PostgreSQL · SQLite · DynamoDB · AWS · Vitest · Git/GitHub · Bash Command Line

Experience

Software Engineering Fellow

July 2025 - Present

CUNY Tech Prep

Remote

- Selected for a competitive, year-long fellowship for top CUNY computer science students, focusing on full-stack web development, cloud technologies, and professional software engineering practices.
- Training includes client- and server-side development, serverless & microservice APIs, ORMs, relational/NoSQL databases, TDD/BDD, CI/CD, security, Agile teamwork, and responsible AI agent integration.
- Building full-stack applications with React/Next.js (TypeScript), Tailwind CSS, Node.js/Express, PostgreSQL, DynamoDB, and AWS, supported by CI/CD pipelines with GitHub Actions.
- Implementing engineering best practices including minimum **70%** test coverage, Lambda API development, infrastructure testing with LocalStack, and robust documentation (ADRs, READMEs, API docs).

Software Engineering Fellow

July 2024 – September 2024

Headstarter AI

Remote

- Engineered and deployed **5** AI-powered web applications, targeting scalability and user growth.
- Led a team in developing full-stack web applications using Next.js, React, Firebase, and other technologies, reducing development time by **30%** through implementing modular components and CI/CD workflows.
- Optimized workflows, enhancing project delivery speed, ensuring seamless integration of modern web technologies like OpenAI, Pinecone, Stripe, and Clerk auth.

Web Developer Fellow

September 2023 – April 2024

CodePath

Remote

- Expanded proficiency in HTML, CSS, JavaScript, and React.js through intensive project-based learning, including integrating external APIs and parsing JSON responses.
- Collaborated in team-based coding sessions, improving project delivery through code reviews, pair programming, and effective use of frameworks.

Projects

CUNY GradeLens

JavaScript, React, Node.js, Express.js, OpenAI API, SQLite, Tailwind CSS

- Built an AI-powered platform during the CTP Hackathon as part of a team of 3, that analyzes grade distributions with GPT-4, enabling natural language queries to deliver insights on professors and course difficulty.
- Developed a full-stack web app (React, Express.js, SQLite) with a chatbot interface, advanced search, and interactive visualizations (Chart.js), including robust data processing, professor name matching, and semester-based filtering.

AI Powered Expense Tracker

JavaScript, React, Next.js, OpenAI API, Firebase, Clerk, Material-UI

- Built an AI-powered expense tracker that allows users to split costs seamlessly using natural language input, with OpenAI extracting key details like amount, participants, and balances for automated calculations.
- Integrated Firebase for real-time data storage and Clerk for authentication, ensuring secure access, persistent user data across sessions, and a seamless user experience with automated expense tracking and retrieval.

AI Flashcard SaaS

JavaScript, React, Next.js, OpenAI API, Firebase, Stripe, Clerk

- Developed a full-stack flashcard web app that dynamically generates, saves, and organizes flashcards using Firestore's hierarchical data structure for efficient retrieval and real-time updates.
- Integrated Stripe for subscription payments and implemented Clerk authentication, enabling secure user access, premium feature management, and a scalable payment system.

Leadership & Community Impact

STEM Instructor

July 2025 - August 2025

New York Edge

Queens, NY

- Led environmental science and STEM lessons (sustainability, renewable energy, ecosystems, etc.) to **150+** grade 3–5 students; adapted instruction to diverse learners and fostered engagement through interactive, hands-on activities.
